

Maths in Stories

Overview

The group will work collaboratively with Anne Haberfield, Deputy head at Castle School and Davinder Mankoo, Primary Maths Lead at Castle school to identify mathematical content within stories. This innovative approach is highly engaging and motivating for pupils particularly those with SEND.

Dates:

24th February 2021

17th March 2021

12th May 2021

Time: 1.30 pm – 3.30 pm

Via zoom

Who is this for?

Maths leads in Special Schools, Teachers in Early Years and KS1, Teachers and Teaching Assistants working with pupils who have Special Educational Needs.

What is involved?

- Develop schemes of work
- Develop linked resource boxes for each of the stories;
- Share ideas for measuring the impact of this on pupils learning;
- Share good/outstanding practice between schools;
- Develop working partnerships

Funding

The cost of this Work Group is covered by the CAM Academy Trust maths outreach department. It is free for schools to attend.

“This approach has helped me to be creative and develop my own pedagogy.”

“Those children who tend to struggle with Maths and those who learn best in a sensory way were most positively affected by this approach. In general, the box created excitement about the Maths learning to follow.”
