

Raising Attainment and Greater Depth in English Online Course

This one-day bespoke CPD course is packed full of games and approaches that will help children generate ideas for writing, improve reading comprehension, and improve their vocabulary. Together, we will explore how you can support pupils in developing a love of reading and writing, building successful strategies and successfully responding to SATS-style questioning.

Additionally, there will be a focus on moving children from dependence to greater independence, exploring how to challenge your children in order to enable them to apply their intertwined reading and writing skills across the curriculum.

"Exceptional trainer with vast amount of knowledge, experience and expertise. Lots of practical ideas to improve teaching and learning. Best training I've had in years-thank you."

Lisa Hall, Headteacher, Ashwell Primary School, Baldock, Herts

Course objectives / outcomes

- Give teachers a deeper understanding of what greater depth should look like across all year groups.
- Find out how to build more opportunities in your teaching to develop reading comprehension skills
- Discover dozens of exciting and engaging activities to support and embed the high quality teaching of spelling, grammar and punctuation through your daily English lessons
