TESSA

**HAMPTON HARGATE PRIMARY SCHOOL
SPECIALIST LEADER of EDUCATION in MATHS INTERVENTION**

Tessa works as a Mathematics Intervention teacher, enabling the lowest attaining children to make accelerated progress and develop their knowledge and understanding of number and reasoning. She has gained an excellent understanding of the curriculum and pedagogical issues and is in a strong position to support colleagues through lesson observations, sharing resources, giving informal advice, sharing learning from professional development events, leading staff development, working with mathematics subject leaders and managing the wider implementation of mathematics interventions throughout the school.

Tessa has experience of effective strategies to engage and meet the needs of all pupils within mathematics teaching, in particular pupils having EAL and pupils with SEN. This has had a positive impact on the children's progress, some of whom are meeting expected standards when they were not previously targeted to do so.

Tessa's own experience has enabled her to grow with her role, becoming an in-house specialist mathematics teacher, understanding the importance of reflection and improving practice. She has supported the professional development of other teachers and teaching assistants by sharing knowledge through collaboration and reassuring discussions about exciting but challenging issues.

WORKING TOGETHER WITH OUR STRATEGIC
