PAUL

**GLADSTONE PRIMARY ACADEMY
SPECIALIST LEADER of MATHEMATICS**

Paul has a real love of maths and this has led him to pursue this specialism as a subject leader, a leading maths teacher, the Peterborough Primary Maths Lead at the Local Authority and currently as the Primary Maths Lead for the Thomas Deacon Education Trust. He has a deep knowledge of mathematics and has supported a number of schools in Peterborough through subject leader support, teaching model lessons and working alongside senior leadership teams to identify key priorities for subject development.

Paul is highly organised, analytical and he prioritises well. His training has been characterised as being relevant, practical and delivered with a good sense of humour!

Paul believes that all children have the potential to be great mathematicians and all teachers have the potential to be great teachers of mathematics. By increasing confidence, subject knowledge and making key connections between different aspects of mathematics, all stakeholders can achieve their full potential. His support is always tailored to the individual and is aimed at being developmental and supportive.

Paul also believes in the power of schools working together to share the fantastic practice that sits within each of our schools so that we can all learn from each other and through that improve the outcomes for Peterborough's children.

WORKING TOGETHER WITH OUR STRATEGIC
